

# Music

## KS3

### **What will I learn?**

All students will study topics that include popular music, film music & world music and all will learn to play the keyboard & develop other instrumental skills. All projects usually combine performance, improvisation, composition and listening activities.

### **What will I do?**

All KS3 students are taught music for 1 hour each week and are encouraged to be creative, expressive and self-motivated in their music-making. Through a variety of increasingly challenging and progressive sequence of lessons that build on what students know and can do, students experience whole class workshops, group tasks and paired work.

### **How will I be assessed?**

At the end of each module, which normally lasts six weeks, a level is given based on the KS3 assessment criteria for music.
